## Statement of Federal Financial Accounting Standards 56: Classified Activities

### Status

<b>Issued</b>	October 4, 2018
<b>Effective Date</b>	For periods beginning after September 30, 2018.
<b>Affects</b>	None.
<b>Affected by</b>	None.
<b>Related Guidance</b>	Interpretation 8

### Summary

The objective of this Statement is to balance the need for financial reports to be publicly available with the need to prevent the disclosure of classified national security information or activities in publicly issued General Purpose Federal Financial Reports (GPFRRs). This Statement allows financial presentation and disclosure to accommodate user needs in a manner that does not impede national security.

This Statement permits modifications that do not affect net results of operations or net position. In addition, this Statement allows a component reporting entity to be excluded from one reporting entity and consolidated into another reporting entity, and the effect of the modification may change the net results of operations and/or net position.

Further, Interpretations of this Statement, which may themselves contain classified information, will address the requirements of this and other standards and permit other modifications when needed to prevent the disclosure of classified information. Modifications permitted by this Statement and future Interpretations may affect the net results of operations and/or net position of those entities applying the interpretations.

The provisions of this Statement need not be applied to immaterial items. The determination of whether an item is material depends on the degree to which omitting or misstating information about the item makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or the misstatement.

## AI Will Soon Read Your Mind

**Your Thoughts Aren't Private Anymore - AI Will Soon Be Able To Read Your Mind**

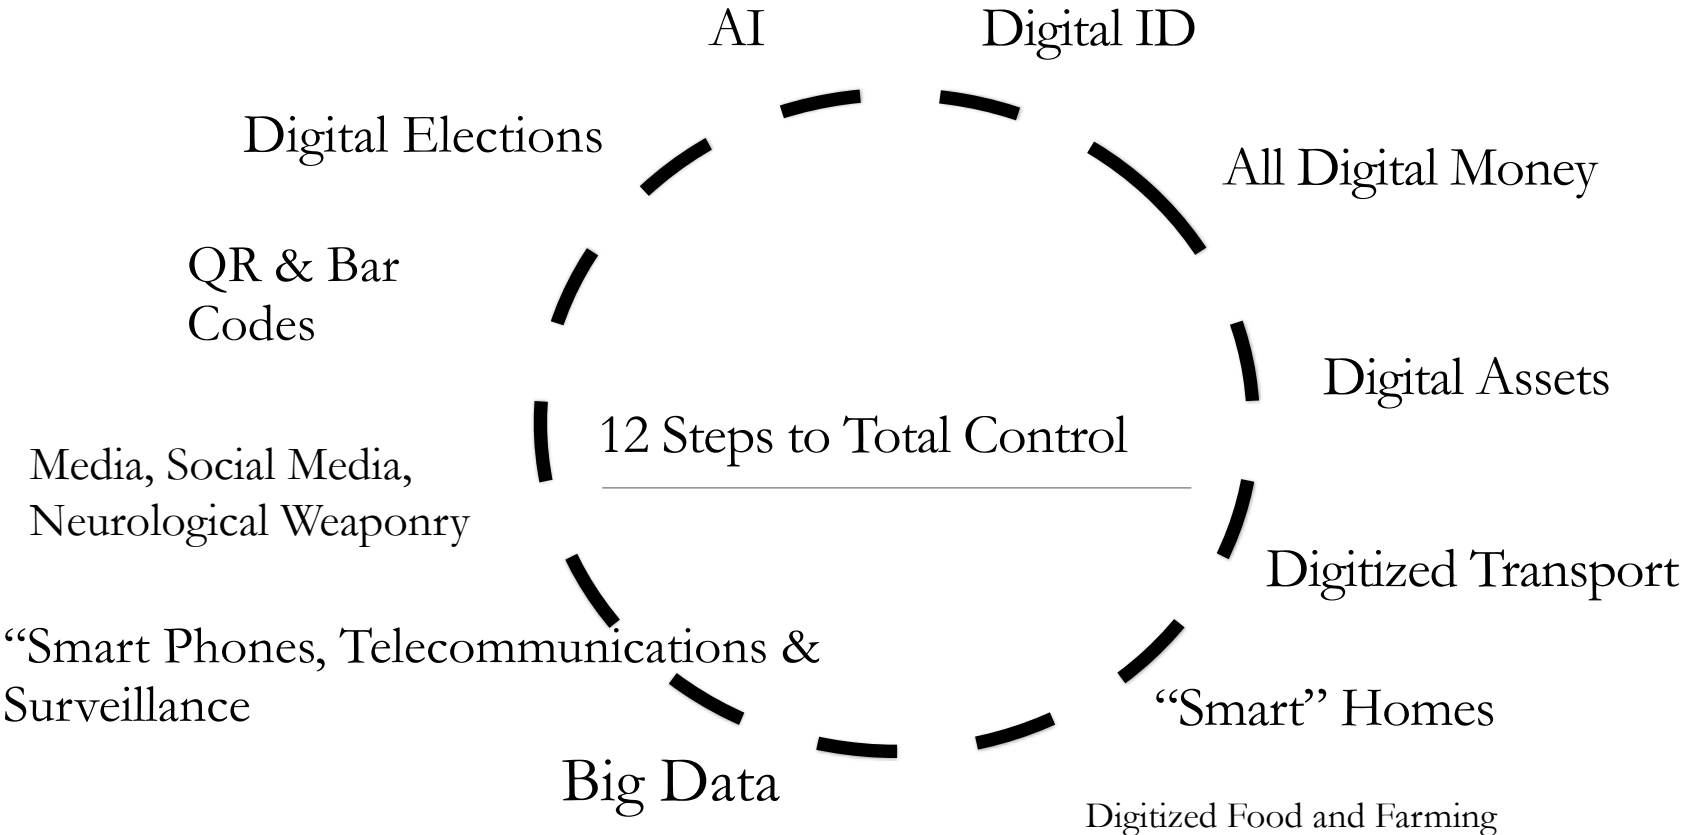

What if your thoughts could control your computer, no typing required? Imagine watching the words you think appear directly on your screen, as if by magic. It might sound absurd, but this isn't some distant fantasy - AI is already making it happen.

On October 19, 2024, researcher Chun-Teng Lin demonstrated this technology live during a TED Talk. His team showcased how AI, paired with brain-computer interfaces (BCI), could decode brain signals and turn them into text. The results weren't perfect, but the message was clear - mind reading AI is closer than ever.

- Cash Acceptance Bill Draft

Consumer Payment Rights and Transparency Act  
[MODEL LEGISLATION ADDRESSING PROGRAMMABLE MONEY]

ARTICLE 1. § 1-201(b)(24) of the state's implementation of the Uniform Commercial Code (UCC), is amended by adding the sentence "The term does not include programmable money," at the end of the subsection.

ARTICLE 2. § 1-201(b) of the state's implementation of the Uniform Commercial Code (UCC), is amended by adding the following as a new subdivision:

- (44) "Programmable money" means money or currency which
- (A) Can be encoded with specific rules and conditions that allow it to be automatically controlled and used according to predefined parameters;
  - (B) Has capabilities allowing for the denial or approval of specific transactions;
  - (C) Allows for user-specific restrictions on usability, or on location, nature, time or identity of the transaction or parties to the transaction;
  - (D) Expires or diminishes, other than being subject to ordinary inflation; or
  - (E) Can be used to implement a social credit score system.

ARTICLE 3. § 9-102(b)(29) of the state's implementation of the Uniform Commercial Code (UCC), is amended by deleting the period at the end of the last sentence and substituting: " or programmable money."

ARTICLE 4. The state's code is amended by adding the following part in the appropriate location:

**§ 1. Coercion unlawful**

- (a) For purposes of this section, "requiring to use" means offering or accepting payments only in programmable money without accepting or offering a non-digital alternative free of charge.
- (b) It is unlawful to require any person to use programmable money for any transaction.
- (c) A violation of subsection (b) is a misdemeanor, punishable with a fine of \$10,000 per violation, imprisonment, or both.

**§ 2. Abuse of programmability unlawful**

- (a) For purposes of this section, "person" means a party to an intended, attempted, or executed transaction.
- (b) It is unlawful for an issuer of programmable money to deny a transaction on the basis of
  - (1) The person's political opinions, speech, or affiliations;
  - (2) The person's religious beliefs, religious exercise, or religious affiliations;
  - (3) The person's gender, skin-color, ethnicity, or sexual orientation;
  - (4) The person's medical history, including, but not limited to vaccination status or participation or non-participation in any treatments, procedures, or diagnoses;
