HEALTH AND HEALTHCARE SYSTEMS

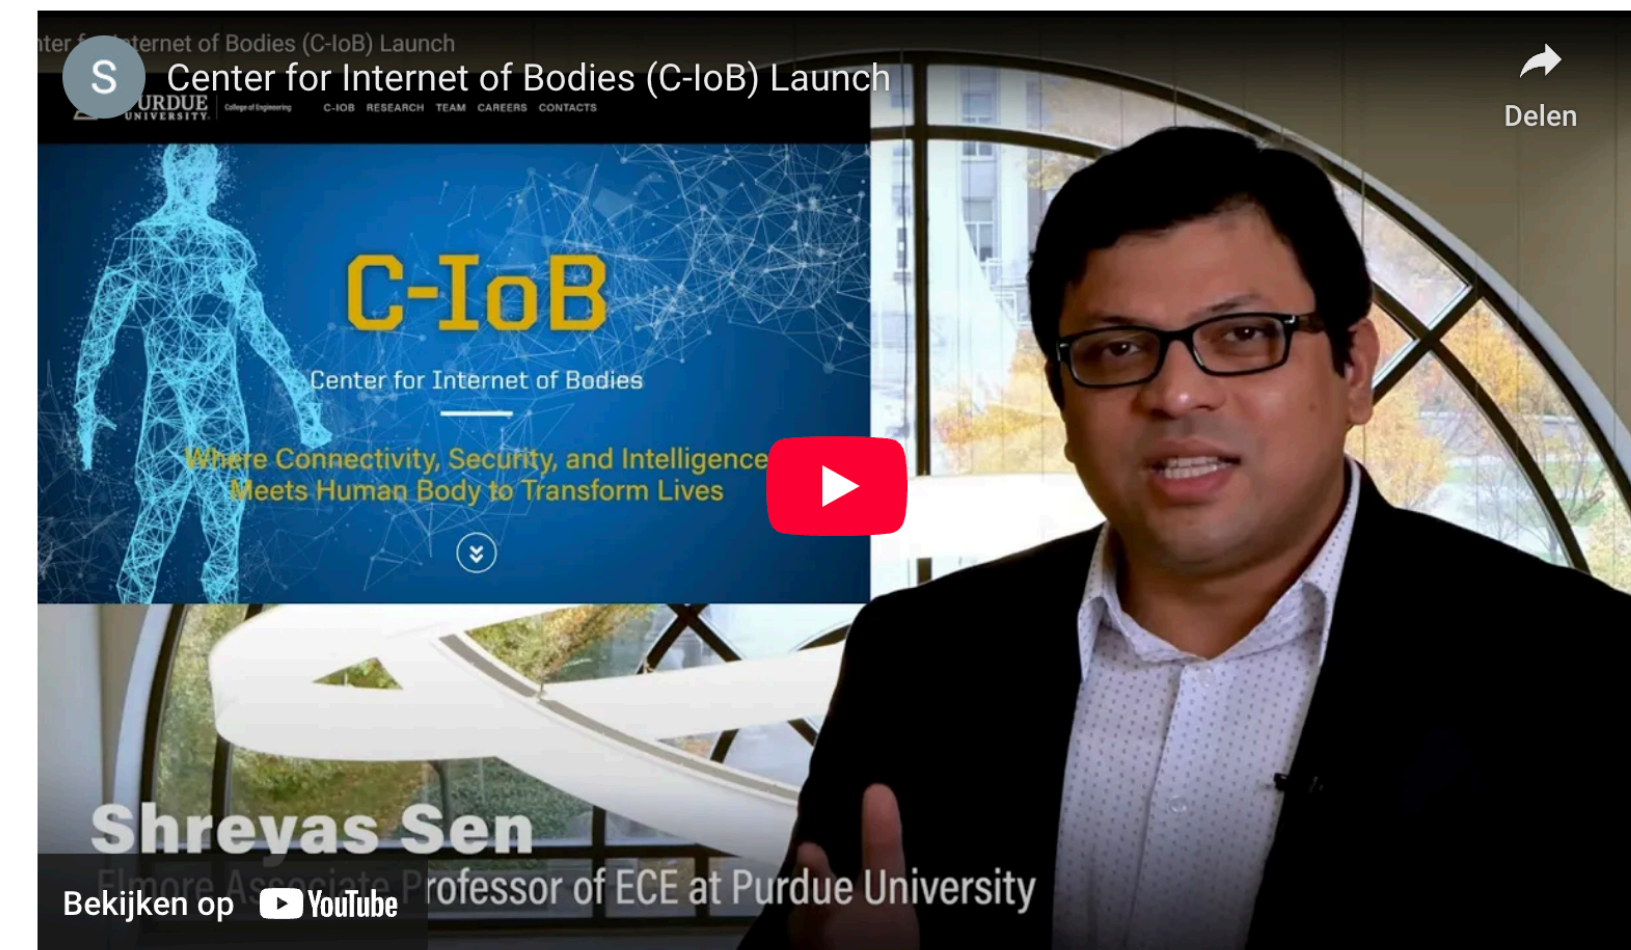

Tracking how our bodies work could change our lives

Jun 4, 2020

- We’re entering the era of the “Internet of Bodies”: collecting our physical data via a range of devices that can be implanted, swallowed or worn.
- The result is a huge amount of health-related data that could improve human wellbeing around the world, and prove crucial in fighting the COVID-19 pandemic.
- But a number of risks and challenges must be addressed to realize the potential of this technology, from privacy issues to practical hurdles.
